

COVID-19: We are still open for business, but taking precautions...

Firstly we hope you and your family are safe and well in these uncertain times.

We'd just like to let you know that as it stands at the moment, Go Pest are still open for business. So if you have pest concerns or are worried that termites may be attacking your property, we're still here to protect your home and family.

That said, we have put in place procedures in order to protect both you, our customers, as well as our employees.

Firstly, if anyone in your household is a confirmed COVID-19 patient, or if your household is under self-isolation or if someone in your house has cold / flu symptoms, please let us know as soon as possible. We can book / re-book the service once you have the all clear.

Secondly, at Go Pest we will follow all Government guidelines and so will not be at work if we have been in contact with a COVID patient or have cold / flu symptoms. If we need to re-arrange an appointment we will let you know.

In addition, our customers should be aware that Go Pest are trained in the use of personal protective gear. Whilst we always wear the appropriate protective gear when spraying or entering the roof void or sub-floor, in these uncertain times, we will now wear masks and gloves both inside and outside the house. We also wash and sanitise our hands before and after any job.

Thank you for your support

John & Steph Pay
